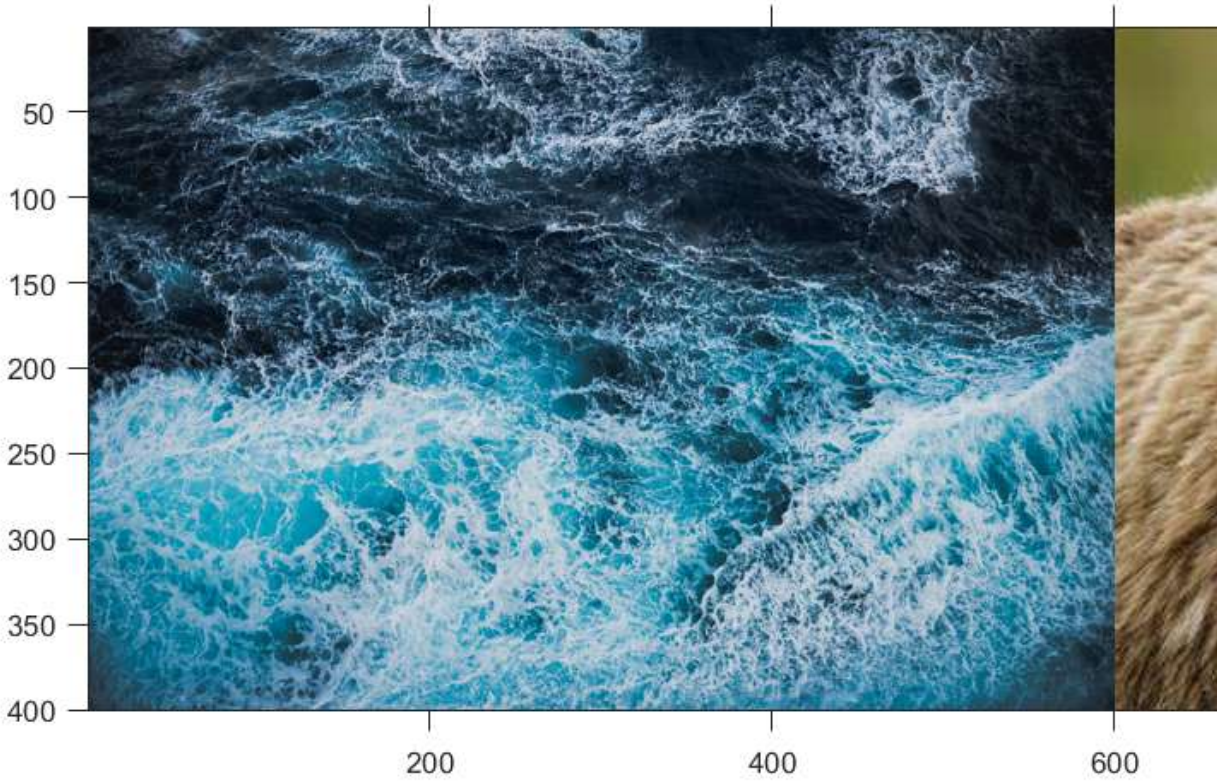
IMAGE ARITHEMETICS

```
%supposedly we have two images and we wanna perform arithemetic operations
%on it we use this method called as vector arithemtics
clc;

a = imread('C:\Users\ASWATH\Desktop\github\splash.jpg');
A = imresize(a,[400 600]);
b = imread('C:\Users\ASWATH\Desktop\github\bear1.jpg');
B = imresize(b,[400 600]);
imshowpair(A,B,'montage'), axis on;
```



```
%performing arthimetics on the image
figure;
d = A + B;
imshow(d), axis on;
